## Acknowledgments

I have so many people to thank, I've decided to express my gratitude in a poem. "Thank You Song" is a lyrical poem written for all of the many people who have helped and influenced me over the years which inspired me to write this collection.

Psalm 95:2 (ESV)

*"Let us come into his presence with thanksgiving; let us make a joyful noise to him with songs of praise!"*

## **Introduction**

I started waking up at 3am and began writing down my thoughts and dreams. I was on a journey with the Lord and was filling my notebook with songs of my life. Eventually, I was writing throughout the days and nights, a combination of new things along with my life's experiences. I was writing words that were given to me through divine inspiration, but this did not happen until God woke me up to life and I called out to Jesus to be saved.

These poems are about the battles of good and evil, with the focus on God and positivity. They are about the Bible, family, friends, pets, careers, and countless number of songs, movies, musicians, writers, artists, entertainers, YouTuber's, etc. that have played an inspirational role in my life. Anything that was once negative has now been turned positive.

I began my career working in maintenance and learning various trades. Years later, my childhood friend Brian introduced me to firefighting, and I joined a volunteer fire department in Seaville, NJ. I then went to school to become an EMT and joined the rescue squad in Upper Township, NJ. Everyone was very supportive and had a huge impact on helping guide me on my path. I felt a medical career was the right direction for me. I continued on to paramedic school, worked in various EMS systems and eventually became a flight paramedic. I also taught paramedic and EMT classes, along with American Heart Association courses.

I felt it was such a gift to be able to help people in all different situations. I definitely learned a lot about life while running the streets and flying the skies as a paramedic. I was able to work with, and meet, many great people in the field and was always learning new things. Although at times it was a difficult and challenging career, I enjoyed being a paramedic. I have always wanted to help people throughout my life and was definitely blessed in this career, but something didn't feel right. It had been an amazing journey, but I felt there was something more.

In the beginning of 2011, I was in a car accident that caused cervical disc injuries and a cyst (syrinx) in my spinal cord. I had permanent nerve damage and lost sensation in my left arm from the elbow down, which ended my flight paramedic career. I started teaching again, and years later regained strength in my arm and got back into the EMS field. Every year I had to get an MRI to monitor the cyst for growth. In the spring of 2018, my MRI revealed something new. As stated by my doctor, "it's a miracle, the cyst in your spinal cord has disappeared." It's amazing how many miracles we're blessed with every day.

After years of working in EMS, I was unable to hide my emotions anymore. The nightmares in my mind were becoming overwhelming. It seemed as if I was living in a horror movie. I was struggling to maintain my career as a paramedic. I thought if I got off the streets and started teaching more it would help, but it didn't matter. I had dealt with anxiety and depression my entire life and in the recent years added PTSD to the list. Along with an increase in prescription pills and alcohol, the darkness had finally consumed me, and I hit rock bottom. It was at that time I called out to Jesus like never before, then things began to change. With Jesus "no weapon formed against you shall prosper." (Isaiah 54:17 NKJV) My depression, anxiety and nightmares now became visions of an amazing world I didn't know existed. Thankfully Jesus had answered my call!

Throughout my life, I believed in God, but always had a lot of questions and misunderstandings. I hadn't gone to church for many years. I knew *of* God but did not really *know* Him. I turned to the Bible and realized that to get my head right, I needed to get my heart right. I started studying the Bible, going to church again, and got baptized. God's mighty living Word had transformed me. Along with reading the Bible, I also started reading many other books. One was Psalm 91 by Peggy Joyce Ruth and Angelia Ruth Schum. Another was a daily devotional, Jesus Calling, by Sarah Young. Both are amazing and powerful books that helped me so much as I was on my new path.

Music, pets, motorcycles, and nature have been therapeutic for me since I was a child. Now I've added writing too. I feel we all have our own version of a book to write. I would urge anyone who is struggling with anything in life to reach out to God and see that the negative world you may be living in, does not have to stay that way. He will show you the way.

I encourage everyone to do their own research about things in this life, and don't allow decisions to be made for you. I say this based on an understanding of the different mistakes I've made. Make your own choices and remember while on your journey, to "test the spirits." (1 John 4:1 NIV) Take everything to Jesus and follow the Holy Spirit's guidance.

As a work in progress, I'm learning how to address any difficulties or frustrations more appropriately now. Struggles will come, and at times may be challenging, but through faith I'm now more prepared to respond to them. I feel as anyone in sports has told us, when you lose a game, put it behind you and prepare for the next one.

Follow your dreams, don't settle for: "I can't" or "that's just the way it's always been." Make a change in your life and see how God will show you things that you never thought were possible. I'm excited to start this new calling and adventure as a writer and lyricist. I'm grateful to wake up each day walking on my new path. Lord willing, I'll continue moving forward to see where He takes me. I'm now living my dreams like I have 50 more years, while living my life like I have 50 more minutes, cherishing every moment. "The fear of the Lord is the beginning of wisdom, and knowledge of the Holy One is understanding." (Proverbs 9:10 NIV)

Looking at the season we're living in, and everything happening in the world, I feel we should focus on what is written in the Bible about these times. As we see the signs on Earth and in the sky, it reminds us of what's been prophesized for the last days. Although we sin in different ways, the truth is that we all sin. We should be praying for mercy and forgiveness, and for all of us to turn from our sinful ways "for the wages of sin is death, but the free gift of God is eternal life in Christ Jesus our Lord." (Romans 6:23 ESV)

The words in this book are written to help remind us that God is Love and we all have a choice. I've made mistakes throughout my life, but I'm always striving to improve. I encourage you to call out to Jesus, if you haven't already, so you can be saved by His grace and have assurance that you will be rejoicing in Heaven when you pass from this life. These are the experiences of my life's journey and being born again in Christ. I pray this book helps lead people to seek salvation through Jesus and is a blessing to you all.

Now, I invite you on an adventure, through the depths of your mind's movie screen, to the rainbow's end and beginning, along a golden road of eternity. The time is now to come together, all the people of every nation, across this universe of a life without boundaries. I got an early morning wake-up call from God about our lives that have true meaning, for which you're permanently awake and you never stop dreaming. There are limitless possibilities through a symphony message of hope and rhythmic positivity.

Let's take a voyage in this supernatural world, beyond the realm of a comfortable existence of routine. We're living in the now, of a life less ordinary, on an angelic adventure of faith in God's amazing story. Winning a galactic battle of good and evil, His light shines down upon us, forever in His glory. We see a reflection into a world of peace, through the eyes of our hearts. Unity is the message, for which we all can begin to start. Through the lyrics of our life's dream, I welcome you to my heart and soul. Let's begin and I'll show you what I mean.

Psalm 28:7 (NKJV)

*“The Lord is my strength and my shield; my heart trusted in Him, and I am helped: therefore my heart greatly rejoices, and with my song I will praise Him.”*

## **Theater of Dreams**

From a dream I awoke  
In my notebook I wrote  
"Listen to the words they're in you,  
This is what your life is going to be,  
Writing down the words, for all the world to see"

God wakes us up, sometimes around three  
He's got so much to say, to you and to me  
The Lord opened, my spiritual eyes and ears  
While in the darkest of night, I have no fears  
The eyes of my heart, are now enlightened  
Dark side of my mind, has been brightened

Take a ride, in that mystery machine  
His love will open you, to the world unseen  
Remember MLK Jr., he had a dream  
The world was intended, to be one team  
Time for all people in God's nation, upon this Earth  
To rise and shine, for this immense rebirth  
When you awake and realize, we're not all machines  
Turn on your heart, to God's theater of dreams

Heard the voice of God, in those early morning hours  
Through the Lord, He gives us power  
The lyrics to me, He has given  
A gift from God, in this vessel I'm driven  
To spread His Word, on the wings of a dove  
Freedom's ringing in our ears, song notes of peace and love  
Giving me messages, all through the day and night  
Now that I know, how to listen to them right

Sometimes you'll awake, with a new kind of knowing  
Jesus is knocking, His love He is showing  
Went the distance, saw the Sonlight at night  
I'm back on my feet, He's brightened my sight

The glare and the beam, what was happening to me  
Loving this life, a new peace decree  
Now's the time, let's all come together  
We're a world of one, and Christ is the tether

Take a ride, in that mystery machine  
His love will open you, to the world unseen  
Remember MLK Jr., he had a dream  
The world was intended, to be one team  
Time for all people in God's nation, upon this Earth  
To rise and shine, for this immense rebirth  
When you awake and realize, we're not all machines  
Turn on your heart, to God's theater of dreams

Joel 2:28 (ESV)

*“And it shall come to pass afterward, that I will pour out my Spirit  
on all flesh; your sons and your daughters shall prophesy, your old  
men shall dream dreams, and your young men shall see visions.”*

## **My Dear Friend Vincent**

Seeing is believing, is not always so  
The air around us, hiding more than you know  
Believing is seeing  
Within all human beings  
Starry night painting, more accurately displays  
The flow of Earth's energy, around us everyday

Vincent like many, troubled and depressed  
Struggled with demons, in life's stress test  
No one would listen, to the messages he had  
If they'd opened their minds, they would have been glad

My dear friend Vincent  
Your mind may have been distant  
You had a gift from the Lord  
Seems hard to understand, what you were heading toward  
Found the missing peace, to the puzzles that we paint  
Renewing our strength, this time we will not faint

With a new brush, Vincent's loving hand is back  
Another starry night, is painted across the black  
Always get back up, when you stumble and fall  
We're all painters on God's canvas, in His glory we stand in awe

There are monsters in this world, that lurk in the unseen  
Not everyone can see them, through their hidden smokescreens  
He had abundant gifts, but constant battles with the beast  
Pushed him to the breaking point, the fear became increased  
Started a new painting, turning 'evol' back to 'love'  
Endless color options, from the palette up above

The time has come  
For the battle's already been won  
Although it can be difficult and tiresome  
With Jesus, evil has been overcome  
Soon people will realize  
So much of the world's real lies

With a new brush, Vincent's loving hand is back  
Another starry night, is painted across the black  
Always get back up, when you stumble and fall  
We're all painters on God's canvas, in His glory we stand in awe

Can't always believe what you see  
It's all become so clear to me  
I know that believing is seeing  
Some may ask, what do you mean  
God has given us a gift  
Deception's curtain, we'll all lift

I now understand, how Don McLean  
Painted a portrait, of Vincent's life and pain  
Other people's madness  
Can turn into your sadness  
Years gone by, they didn't know how  
Seems they're beginning, to listen now

Wheat field thunder cloud, eternity's gate  
Gone too soon, for fate would not wait  
In these days, keep saying your prayers  
Soon we'll be heading, up those heavenly stairs  
Vincent's now peaceful, for this I know  
Live your life now, paint your own Van Gogh

## **Antenna of Love**

The pool cue, is clearing the table  
Love is back; ready, willing, and able  
The heart of a locket  
Sending peace to every pocket  
Tune your heart's radio, to human being  
As you can see, the evil is fleeing  
Gotta love one another, my sisters and brothers  
Now is the time, unlike any other

The destructive signal, has been shut down  
It's God's peace that's now, going out to every town  
Ambassadors for Christ, in the wedding band jammin'  
No need to get back, to the regularly scheduled programmin'  
From Wardencllyffe in New York, to the Paris Eiffel Tower  
Love's going 'round the world, you can feel God's power

Antenna of love  
The peace of a dove  
We're talkin' worldwide K-Love  
Spreading love on every station  
Preaching the eternal Gospel to every nation  
Making sense of this abomination

Our Father's peace and love  
Eternal from above  
Remember our true history  
While sailing God's frequent sea  
His plan has come  
For us all to be one

The deception has been lifted  
God's people have been gifted  
As the new generations  
He'll save all the nations  
Set the volume to max  
Love will stop the attacks

In this life some call a game  
Remember His name  
Wearing a new jersey, to support the team  
Fans of the Lord, hear an audio stream

Antenna of love  
The peace of a dove  
We're talkin' worldwide K-Love  
Spreading love on every station  
Preaching the eternal Gospel to every nation  
Making sense of this abomination

We're all Scooby Doo  
The mystery is in you  
There's work to be done  
Remember through all we are one  
A world of paradise is to come  
Welcome back to God's new kingdom

1 John 4:7 (ESV)

*“Beloved, let us love one another, for love is from God, and whoever loves has been born of God and knows God.”*

## **My Wife**

Just as the Dude, I'll always abide  
Happily married, and loving my bride  
Her sparkling Heavenly eyes  
Brighten the darkest of any skies  
Promise 'til the end of time  
A Pink Floyd nursery rhyme  
Hand in hand, and heart to heart  
Together forever, never be apart

My heart can't stop smiling  
Since the day you wore my ring  
Bodyguard has us covered, underneath His wing  
I'll be your Costner, you'll be my Whitney  
Living together, in this world of Disney

In this new year, our love it shines  
Like God's music notes, so divine  
Got across that river, to be with my wife  
Lord knows she's so fine, she brings such beauty to life  
Celebrated 25 married years in the making  
Always try to live, with more giving than taking

As the sun rises, a beautiful red dawn  
We are birds in this painting, that He has drawn  
God's morning skywriter  
Paints with a purple rain highlighter  
I love you pumpkin, my favorite pie  
You've saved my life, that ain't no lie

My heart can't stop smiling  
Since the day you wore my ring  
Bodyguard has us covered, underneath His wing  
I'll be your Costner, you'll be my Whitney  
Living together, in this world of Disney

From those Firehouse days as a trainee  
To where my heart is now set free  
You've always been there for me  
Together we're stronger, a love guarantee  
I've never had to wonder  
I'll always be your thunder  
Lady, you look wonderful tonight  
His plan made our hearts as one unite

This love of a lifetime,  
was sent from above  
We just couldn't help,  
falling in love  
How beautiful my darling,  
sunshine rose among the thorns  
Through the challenges before us,  
we've weathered every storm  
Blessed are those,  
that are thankful for this life  
Moral of the story,  
I'm thankful for my wife

Proverbs 31:10-12 (ESV)

*“An excellent wife who can find?  
She is far more precious than jewels.  
The heart of her husband trusts in her,  
and he will have no lack of gain.  
She does him good, and not harm,  
all the days of her life.”*

## **Renovate Your Heart**

The highest of price, has already been paid  
What sometimes may seem, to be poorly made  
Is actually the builder's design incentives  
Strengthening our hearts, for future endeavors  
Constructing the framework, of Holy Spirit relations  
His peace will help, take away our frustrations  
Reclaim your heart, like vintage hardwood floors  
And use that old wood, for a beautiful new door

Magnolia company, the town or the tree  
Pastor Bill, Milestone Church, helped set me free  
Work's always in progress, don't build your castle on sand  
Jesus is the Rock, strongest in the land  
Don't hang a picture, to hide your heart's cracked wall  
In this real estate of life, be an investor when God calls

God renovates your heart  
Even before you decide to start  
King of kings builders, co-starring Chip and Jo  
Offers a home warranty, giving the confidence you know  
A strong foundation stands firm, passed the test  
Transform your heart like those homes, with the Savior's best  
When construction of life, becomes too heavy  
Pray, take a deep breath, and carry the "e"

Early morning writing lyrics, waking up at 3am  
That rewind button, is now working again  
New power source, in our universal remote control  
Love's clear coat of protection, on our heart and soul  
We're doin' it right, this time around  
Been writing letters with Paul, a feeling so profound  
Stopped the demolition crew's evil countdown

God renovates your heart  
Even before you decide to start  
King of kings builders, co-starring Chip and Jo  
Offers a home warranty, giving the confidence you know  
A strong foundation stands firm, passed the test  
Transform your heart like those homes, with the Savior's best  
When construction of life, becomes too heavy  
Pray, take a deep breath, and carry the "e"

Romans 8:28 (KJV)

*“And we know that all things work together for good to them that love God, to them who are called according to his purpose.”*

## **Jesus Got Our Six**

My friend Don and I  
Just had a slice of American Pie  
Down at the corner cafe  
Is where we met one day  
We talked about, what the people might say  
When they see God's always winning, and is here to stay

Train's back from the coast  
From the highest of most  
Church bells again are ringing  
My three best friends, you'll hear 'em singing  
Creating light from sound  
Answers to our questions, can be easily found  
Won the war of the spirits, on Earth's battleground

Jesus got our six  
As we stand holding hands, at our nine and three  
Together we are friends, one family  
Jesus got our six  
We will honor Thee  
Standing tall, for all the world to see

In a room, of God's house called Earth  
That's where we'll witness, this world's rebirth  
At life's crossroads, feelin' overjoyed  
That old contract's now null 'n void  
No more evil, no more strife  
Dull is both sides, the devil's knife

As we walked off the stage  
A band of many age  
My man Charlie said with a smile in his gaze  
Last time I'm tellin' ya son of a gun  
We're the best of all these days

Jesus got our six  
As we stand holding hands, at our nine and three  
Together we are friends, one family  
Jesus got our six  
We will honor Thee  
Standing tall, for all the world to see

Our Lord God Almighty reigns, very clear the Angel spoke  
The devil just stood there, in the fog of smoke  
For Satan's spell, yes it had been broke  
All he could do, is look down at his feet  
For he knew, this had been his defeat  
Jesus has now, defibbed our hearts  
David's music is back, time for a new start

This generation's no longer lost in space  
Music and faith, setting free the human race  
Angels are singing, to make us all smile  
Water of life flowing, a new endless river Nile

Jesus got our six  
As we stand holding hands, at our nine and three  
Together we are friends, one family  
Jesus got our six  
We will honor Thee  
Standing tall, for all the world to see

It's now everyone's chance  
Let's all get up and dance  
Put on your footloose dancin' shoes  
'Cause we're no longer singin' the blues  
This is God's country, go and tell the Good News

Colossians 3:16 (KJV)

*"Let the word of Christ dwell in you richly in all wisdom; teaching and admonishing one another in psalms and hymns and spiritual songs, singing with grace in your hearts to the Lord."*

## **Pet by Your Side**

Here's a little story, 'bout a man and his dog  
She's the therapy, when my mind's in a fog  
Cute yellow lab, whose love is sublime  
Everyone loves her, her name is Sunshine

The Word of God, has been speakin' to my heart  
Feel my life's second act, is about to start  
Went out walking, with a Bible and my Sunny  
We had a little talk, bet it looked kinda funny  
Said feel like I'm ready, to begin livin' this dream  
Feelin' strong and prepared, to join the team

My dog turned to me, these words she said  
Tennessee or New York, the place we should head  
Or go down to Florida, and relax instead  
I said are you serious, is it time to go  
You already know, let's get on with the show

Fill your water bowl with love, let the Son shine in  
Live like our pets, their heart's pure from within  
Rise above the stress, and enjoy life's ride  
Hold your head high, with your pet by your side

Anything's possible, don't stop believin'  
Threw out that ball, and she went retrievin'  
Even when you fake it, they run after that toy  
They trust that you threw it, playing is what they enjoy

We can all feel better, with good belly rubs  
Cross paw peace, enjoying kisses and hugs  
Purrin' like a Hemi, the coolest of cats  
Together they play, two kids being brats

*3am Songbook*

Times can be rough, from Rocky to Smooth  
Look to the heavens, ask what's my next move  
When life catches you strugglin', with your pants down  
Pull 'em up tight, wrap the King's belt around  
Catching frosty snowballs, while playing in life's backyard  
Simple and yet so fun, helps when the days are hard

Fill your water bowl with love, let the Son shine in  
Live like our pets, their heart's pure from within  
Rise above the stress, and enjoy life's ride  
Hold your head high, with your pet by your side

We drive around town, face in the wind  
Nothin' bringing us down, every day's the weekend  
Always happy to see us, with excitement so kind  
They love at all times, no matter what troubles our mind  
Top down and cruisin', a Jeep wave we're giving  
Radio pumpin', our favorite songs we're singing

Curled up together, on the couch where we Schnug  
Fill up with love, the hole that life's dug  
Happy today, regardless of money  
A walk in the park; nature, bees, and Honey  
With God and your family, life's full of joy  
Like when the bark box comes, with your doggie's new toy

*3am Songbook*

Fill your water bowl with love, let the Son shine in  
Live like our pets, their heart's pure from within  
Rise above the stress, and enjoy life's ride  
Hold your head high, with your pet by your side

For our pets that have passed, and are no longer with us  
I've seen them in Sunshine, have faith and trust  
They're forever around us, I have no doubt  
In a heavenly park, they are playing about  
Furry family love, that turns our nightmares to Christmas  
We're like Jack or Sally, and our Zero flying with us

They helped get us through life, the joy and the pain  
Although we don't see them, I feel they remain  
Now they have crossed, that rainbow bridge of a star  
They're playing the strings, of our heart's guitar

As this story comes to a close, again went out for a drive  
They're always happy with us, just being alive  
Racing thoughts in my mind, then began to calm  
Feeling stronger now, thinking 91st Psalm

Pondered and realized, the pet by my side  
Seems like the one, taking me for the ride  
Wash your soul's water bowl, don't let it dry, refill it  
Got a dream with a plan, time to start, go fulfill it

## Armor of God

Put on the armor of God, be protected by the belt of truth  
God's righteousness is for us all, no need to change in a phone booth  
Helmet of salvation, gives us confidence to go forward  
If lost in a sea of despair, His love will lead you shoreward

While sailing the universal waters, keep God as your rudder  
May your heart flow from life's wellspring, with the words you utter  
God's servants of New Jerusalem, in the square gathered 'round  
Ripple in the wind, hear the voice of a unified sound

Shoes of peace cover our feet, and help to share the Good News  
Standing up to any challenge, with Him we'll never lose  
With the beat drummin' in my soul, my heart's an open book  
Your questions can be answered, give the Bible a look

While sailing the universal waters, keep God as your rudder  
May your heart flow from life's wellspring, with the words you utter  
God's servants of New Jerusalem, in the square gathered 'round  
Ripple in the wind, hear the voice of a unified sound

A shield of faith stops the arrows, that come from every angle  
God's Word is our sword, to stand against Satan's lies entangled  
Truth and wisdom of our home, God has been revealing  
Reigning His Word through the masses, from this leaking ceiling

While sailing the universal waters, keep God as your rudder  
May your heart flow from life's wellspring, with the words you utter  
God's servants of New Jerusalem, in the square gathered 'round  
Ripple in the wind, hear the voice of a unified sound

Ephesians 6:11 (ESV)

*"Put on the whole armor of God, that you may be able to stand against the schemes of the devil."*

## **Two-Wheeled Therapy**

On a horse of steel, these streets I ride  
Evil's tryin' to get me, but I'm still alive  
In God's Word, learn to feel His powers  
Songs of the risen rose, showers the flowers  
Biblical news of the world, Jesus is main stream  
It's motorcycle music, when those pipes scream

While riding through Sewell  
Saw a church sign so cool  
It said, "Exercise daily, run from the devil  
Walk with God", in His glory we'll revel  
On a pair of wheels we travel, along life's highway  
World tour of freedom, God Bless the USA

Detroit's Kid Rock, I love you man  
Singin' born free with faith, all across the land  
Goin' with the flow, Holy Spirit winds from heaven  
Watching the wheels, riding Freeway 777

Four way stop, at life's crossroads of wild  
Been riding the wind, since I was a child  
God's helmet of salvation, protects me on the road  
He's the headlight of the world, our computer's source code  
Jesus in my sidecar, brought my heart such clarity  
Take a little time, for some two-wheeled therapy

Jammin' tunes through the hills, heart's no longer dead  
Enjoy the sunshine daydream, flowing through your head  
Feeling grateful with Jerry, and the rest of the band  
May God's face shine upon us, all over this land  
Me and my girl, on the Harley cruisin'  
Through scarlet begonias, ain't no way we're losin'

Hangin' out with LL Cool J, and Run DMC  
Can't live without my radio, turn up the rock box with me  
A weekend in New England, in a Manilow mood  
Landscape of a painting, hungry for some food

There's a warm Psalm mist in the air  
Bright sunny day of goldenrod glare  
Been riding through, those honeysuckle breezes  
Stopped at the vineyard, for some wine and cheeses  
Any make or model, they're all the same to Jesus

Four way stop, at life's crossroads of wild  
Been riding the wind, since I was a child  
God's helmet of salvation, protects me on the road  
He's the headlight of the world, our computer's source code  
Jesus in my sidecar, brought my heart such clarity  
Take a little time, for some two-wheeled therapy

## **Nikola Tesla**

Man with a plan, the greater good of the Earth  
Time has arrived, for the great rebirth  
Aurora Borealis, been given me a feeling  
God's emerald light's shining, through this Truman Show's ceiling  
Heat from deception's brought this world to a boil  
Stop the wars over oil, light up a Tesla coil

Triangle instrument rolls, key to the world we know  
Healing us all, the capstone's now aglow  
We're gonna play, that secret chord  
You know the one, that pleased the Lord  
God's alarm clock is ringing  
A love song from Tesla we're singing

"Your kingdom come, Your will be done,  
on earth as it is in heaven"  
Jesus' returning soon, the hour's eleven  
A circle of life, Earth is the name tag  
Small yet vast, in God's universal tote bag  
Seems the sounds that we hear  
Can be seen crystal clear

Free people and energy, free the world for all  
God's children are awake, we've answered the call  
We're the ones, to make a brighter day  
Lovelight is on, just follow His way  
Cue the peace to the puzzle, the love, the Son  
Energy's all around us, time to free everyone

Tune in and activate, the pyramid's power  
Body of strength, bells of the church tower  
Perfect harmony and understanding, in this golden hour  
Spreading God's love, in a 432 vibrational shower  
Pi in the sky, a divine Wardencliff tower  
In an awakening world, that is magnetic  
Choose to create love, that is energetic

We now know the frequencies Kenneth  
Battle's been won, with the seal of the seventh  
Chess match of life, against death, it's not too late  
The King put the grim reaper, into checkmate  
God's love is going out, to every town  
Time to put on, your wedding gown

Nikola Tesla's the man, who's been kept out of history  
Suppressing his knowledge, only making a mystery  
His contributions to humanity, so many used everyday  
Greater plan we'll bring to life, for there is a better way  
Human radio has set, love's signal to repeat  
We knew all along, that God can't be beat

Free people and energy, free the world for all  
God's children are awake, we've answered the call  
We're the ones, to make a brighter day  
Lovelight is on, just follow His way  
Cue the peace to the puzzle, the love, the Son  
Energy's all around us, time to free everyone

Evil signal's been shut down, we can all take a breath  
No need to be afraid, of the sting of death  
With the Son, everything is in tune  
From Earth, to the bright side of the moon  
Tomorrowland is happening, no need to ask how  
Soon the world will see, the truth that is now

Let's live the movie, Tesla a Life Unedited  
We'll play supporting roles, as angels of power unlimited  
We're all learning more facts, of true history  
A finale party ending, a new beginning victory  
Supernatural film of truth, on this world's silver screen  
A documentary beyond, what you've ever seen

Mark 9:23 (ESV)

*"...all things are possible for one who believes."*

## **A New Old Psalm**

Look up, take courage, get your heart in sync  
God's angels are nearer, than you might think  
After all these years, they're all together  
Helping rid us of fears, you may hear their feathers  
Pay attention world, for this is God's plan  
He loves us all; every child, woman, and man

Sands of time were running low, but now we're able  
To spin the hourglass, that was stuck to the table  
We're The Chosen generation, that's being shown how  
No need to fear, we're in God's hands now  
Like my twisted sister said, we're not gonna take it  
We'll take our stand, together we'll make it

No matter how stormy the weathers  
God will cover you with His feathers  
Under His wings you will find refuge  
Like Noah had during the deluge  
His faithfulness will be, your shield and rampart  
For God's love, will transform your heart

Signal's been sent, will you answer the call  
No more SOS in distress, now peace and love for all  
He will protect us, for we acknowledge His name  
Rise and revolution, we're changing the game  
Eyes of the Lord, over the righteous and lost  
He already paid the price, for us there is no cost

His ears are open, unto our prayers  
Look for that ladder, climb those golden stairs  
As the horn sounds, Michael stands up  
Now is the time, to fill your cup  
You just need to ask, He'll overflow His  
Trust in your gut, while taking life's quiz

No matter how stormy the weathers  
God will cover you with His feathers  
Under His wings you will find refuge  
Like Noah had during the deluge  
His faithfulness will be, your shield and rampart  
For God's love, will transform your heart

He has given His angels charge  
The wicked can't survive, in a love so large  
Arrows now seem dull, with no sharpener available  
There's no mountain task, that is not scalable  
Ten thousand may fall around me, there no evil shall befall thee  
Just a new old Psalm, that was written for you and me  
God's angels have been uniting, breaking the chains  
Steering stars a new direction, with Christ at the reigns

Psalm 91:2,4 (KJV)

*"I will say of the Lord, He is my refuge and my fortress: my God; in him will I trust. He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield..."*

## **Peace on My Side**

The peace on my side, a Psalm 91  
It's different than, your average gun  
If you are peaceful, or on the run  
Psalm 91, can't be outdone  
Peace for any age, teach your children young  
About life, the Bible, and your Psalm 91

Those arrows that, fly by everyday  
Don't seem to trouble me, like yesterday  
I'll always be strong, no matter what the haters say  
He gives me courage, while living this dream  
Will not back down, strength and love is the theme

While traveling through, this great land  
A simple hello, or shake of the hand  
A hopeful smile, can go a long way  
Doesn't matter if, you don't know what to say  
Just listening can, brighten someone's day  
While on this trip, follow your tour guide  
I'll always have Jesus, the peace on my side

He's commanded His angels, to guard over our ways  
An inspirational ballet, of these glorious new days  
Jesus keeps leading us, as we go  
After all He's the One, running this show  
Happiness and joy, is what we feel  
Peace in our hearts, His love is real

As we enter, the Promised Land  
I'll always carry, my peace in my hand  
Singing the love, no matter the band  
My holster carries, God's music my friend  
I'll be armed with His love, surpassing the end

While traveling through, this great land  
A simple hello, or shake of the hand  
A hopeful smile, can go a long way  
Doesn't matter if, you don't know what to say  
Just listening can, brighten someone's day  
While on this trip, follow your tour guide  
I'll always have Jesus, the peace on my side

## **The Return**

Question for us to ponder, what if real is the dream  
There are many of you out there, that know what I mean  
Pay attention in this life, things aren't always as they seem  
Look for the meaning, like in this song of many themes  
What's real or fantasy, open your mind and you'll see  
Your heart is the key, love will set you free

No such thing as coincidence, things happen for a reason  
Many signals from the Lord,  
to get us through the toughest seasons  
Inspirational messages of God, Shelley does preach  
We're all starting to live, a Charlie Chaplin speech

God's here to stay  
Each and every day  
Tell your story to all  
God has made the call  
No more living in fear  
Jesus' return is near

Been taking my time, writing with a slow hand  
A Jasher music man's request, to take the stand  
Holy Spirit's awakened me, to join the band  
Eyes wide open, heading to the Holy Land

Some run the hamster wheel, as their life passes by  
Others see the Holy City, coming down from the sky  
We can all break free, you just gotta try  
Time for this evil world, to say goodbye  
We're making a move, beginning to set things right  
Time to put on, a Johnny Cash suit of white

God's here to stay  
Each and every day  
Tell your story to all  
God has made the call  
No more living in fear  
Jesus' return is near

Unplug from, the matrix of deception  
Wake up and receive, there's no exception  
I was running behind, but now I'm caught up  
Upload to the cloud, singers provide backup  
Bible Project crew, get your learn on with the Lord  
A priceless education, that anyone can afford

Lessons from Dorothy, helped this tin man find his heart  
Showed me the brains and courage, had been there from the start  
We have Glenda's in our lives, kind and loving while battling witches  
It's the evil ones, that digs our mind of shallow ditches  
Riding on a carriage, listening to Kansas and Toto  
Along the narrow path, somewhere over the rainbow

We've sailed beyond, the road of yellow brick  
Still standing through it all, brought Oz that old broomstick  
Through journeys on this path unknown, we're never on our own  
Call God the great and powerful One, there's no place like His home  
Tell everyone from east to west, across the hemisphere  
It appears very clear, the return of Jesus is near  
Only the Father knows, the clock's final gears

Matthew 24:36 (ESV)

*"But concerning that day and hour no one knows, not even the angels of heaven,  
nor the Son, but the Father only."*

## **Amanda's Field**

Squad 21 and Station 19  
New beginnings for me, while still quite green  
Although nervous and scared  
One thing's for sure, I knew that I cared  
Coming home that day, with a force from behind  
Seems your role, had already been assigned  
Heaven's now home, we'll see you in time  
Forever in your family's heart, and in mine

While at Amanda's Field, or at the skatepark  
Let the light in, whenever it's dark  
Throughout the year, and every 4th of July  
When you sit in the field, and look to the sky  
Her goodness shines through, for everyone to see  
Over the field, by her home in South Jersey

A lighted lamp of gold, against a candlestick beam  
She'll shine on forever, in this life but a dream  
When tragedies happen, can't dwell on the fault  
Don't let those demons, build up in your vault  
Many have nightmares, that get really bad  
Think of the good things, it helps with the sad

While at Amanda's Field, or at the skatepark  
Let the light in, whenever it's dark  
Throughout the year, and every 4th of July  
When you sit in the field, and look to the sky  
Her goodness shines through, for everyone to see  
Over the field, by her home in South Jersey

The past is behind us, can only forgive  
No matter what happens, we all have to live  
A servant of the Lord, in all that she did  
His love in her heart, could never be hid  
No longer here, it's hard to conceive  
Our spirit carries on, you just gotta believe

While at Amanda's Field, or at the skatepark  
Let the light in, whenever it's dark  
Throughout the year, and every 4th of July  
When you sit in the field, and look to the sky  
Her goodness shines through, for everyone to see  
Over the field, by her home in South Jersey

On the side of that road, along with your family  
Your soul had passed on, I felt you around me  
There are angels everywhere, no need to ask why  
From friends to a stranger, not just up in the sky  
Anyone could be an angel, even you and I  
Although not here in body, her spirit's alive  
Shining bright forever, over Sunset Drive

Matthew 5:16 (ESV)

*"In the same way, let your light shine before others, so that they may see your good works and give glory to your Father who is in heaven."*

## **Floydian Ship**

Hi guys, wait 'til ya see  
Something special, for you, from me  
A song for all, the Pink Floyd family  
Not able to ease, my mind of fears  
Your sounds in my ears, helped stop the tears  
Didn't realize my current self, had already died  
Couldn't do it on my own, although I had tried  
Playing medicine for the soul, that's what I do  
Enjoy nature's beauty, and listen to you

Polly writing with David, pick up this Heaven's brochure  
Let's all come together, for this Pink Floyd grand tour  
England's Amazing David Gilmour Best Ever  
Mnemonic for guitar strings, thought it kinda clever  
Listening to the songs of David, calms the mind  
A prescription from Dr. Floyd, there's no better kind  
They're not FDA approved, but man can they groove  
Take as needed, your heart light will improve

A smile that's Rich with light  
Sometimes it just feels Wright  
Volume's pumping, we're feeling overjoyed  
On a journey of hope, while listening to some Floyd  
Shining bright beyond the end  
That verse is for you my friend

Finally stopped, I had been runnin' away  
Stood against evil, now I've got somethin' to say  
After many years, been baptized by God's water gun  
Now awake and on the go, life's for livin' and for fun  
Gonna shine among them, crazy diamonds in the sky  
No more fear and anxiety, not afraid to die

This shining soul's no longer lost, down the rabbit hole  
We're taking it back now, that fiddle the devil stole  
Coming back to life, hear cries of freedom from our horns  
Clearing our heart's field, full of barbed wire thorns  
Roger gets us through, when those waters are rough  
Fight the good fight, no matter how tough  
World leaders unite, and bring us all together  
Spread our wings of peace, as love's primary feather

Pink has said it for years  
Please open up your ears  
In this wind of change, we've found our rhyme  
Awakened today, just in the Nick of time  
Thank You Syd for sharing your dreams  
Maybe that's what his name means  
Geldof, Parker and crew, showed us an amazing wall  
Had an arctic heart, until I got the call

Take a golden leap of faith, and rise above all  
Made it past the Atari game, of life's many pitfalls  
It's a miracle this life, and we ain't seen nothin' yet  
It all makes perfect sense, soon we'll see it in the gazette  
The time has come, to play our worldwide anthem  
Dawning of a new day, who could have ever fathomed  
This dream is now an orchestra, playing a symphony of love  
We've heard the tolling of the bell, thank you to the Lord above

Finally stopped, I had been runnin' away  
Stood against evil, now I've got somethin' to say  
After many years, been baptized by God's water gun  
Now awake and on the go, life's for livin' and for fun  
Gonna shine among them, crazy diamonds in the sky  
No more fear and anxiety, not afraid to die

*3am Songbook*

With high hopes, in time the truth we'll unveil  
The soldier made it back, to narrate a happy tale  
We've battled many demons, finally figured it out  
Sharing the Good News, we'll stand up and shout  
Their sounds resonate, to take you higher  
Ignites the spark, in your soul's amplifier  
Does anybody know, which one is Pink  
Peer into the mirror, least that's what I think

Echoes of time, at the great gig in the sky  
Our spirit's unbroken, we can all learn to fly  
Storm of art, on every album cover  
Just my little song, for any Pink Floyd lover  
Every person plays a part, take any one away  
It wouldn't be Pink Floyd, the way we know them today  
Thank you for the music, helps keep a balance on this trip  
Set your heart's compass to onward, aboard your Floydian ship

Psalm 100:1-2 (ESV)

*"Make a joyful noise unto the Lord, all the earth! Serve the Lord with gladness! Come into his presence with singing!"*

## Heartlight Hotel

My heart light went, from red to green  
Finally on the go, you know what I mean  
Spoke with God, and Elvis in a dream  
About our life's eternal balance beam

Sail away, on this sea of love  
When the waters get rough, He'll lift us on wings of a dove  
Misery and fear, to them we're saying farewell  
Jesus shut down, the heartbreak hotel

The twisted heart's knot, He's been untying  
As it grows large, you begin to stop crying  
Keep hope alive, while dodging those spears  
Use your key of life, to lock out the fears

The road was rough, we went through hell  
We've now opened, the Heartlight Hotel  
Joyful stories of life, is what we'll tell  
Glory be to God, we will yell  
A green light special, on aisle five  
A once dark heart, now full of love and alive

The clerk's tears, are no longer flowing  
Bellhop's now dressed in white, God's love I am knowing  
At the Heartlight Hotel, is where we'll dwell  
He'll leave His light on for us, just ring the bell

The twisted heart's knot, He's been untying  
As it grows large, you begin to stop crying  
Keep hope alive, while dodging those spears  
Use your key of life, to lock out the fears

2 Timothy 1:7 (KJV)

*“For God hath not given us the spirit of fear; but of power, and of love and of a sound mind.”*

## **Rock Went a Rollin'**

Christ is the controller, of life's video game  
With His love in your heart, never be the same  
Angel of the Lord appeared, with clothing white as snow  
Jesus Has Risen, a message from Matthew, for all the world to know  
His face of loving brilliance, shining so bright  
Like the Griswold house, lighting up the night

Lyrics are the colors, in my life of training  
My soul's brush is renewed, turn down the complaining  
Feel like an artist, in my Father's painting  
Blood of the Lamb, on my heart it's staining

Easter's the day, the rock went a rollin'  
Opened the tomb, that could not hold Him  
Christ on the cross, saved us from hell  
Holds us together, like a laminin cell  
Filling your heart, with our God of creation  
Make every day, a Christmas vacation

Holy Spirit powers, flow and activate  
In the form of God's love, an open gate  
A dynamic duet, singing as one  
Jesus lives within us, together we've won  
Enjoy this wonderful life, all throughout the years  
One voice choir singing, upon a midnight clear

Front row center stage, at the pony of stone  
With Bret Michaels, singing into his microphone  
Listen to the music's heart, Christ's hand He does extend  
To save your soul and live the life, that God did intend

Easter's the day, the rock went a rollin'  
Opened the tomb, that could not hold Him  
Christ on the cross, saved us from hell  
Holds us together, like a laminin cell  
Filling your heart, with our God of creation  
Make every day, a Christmas vacation

Life's many positive messages, a Nickelback song  
About unity and standing strong, yes we can all get along  
Seeing the world as it should be, seems the point has been missed  
With Christ in your heart, there's a happy ending to this

Remember Christmas and Easter, for their true meaning  
No life is too dirty, when God's doin' the cleaning  
Jesus Christ's birth, and resurrection  
Forever changed, humanity's direction  
Jesus died for each of us, once and for all  
Then He rose again, death's no match for His call  
He's Alive sings Dolly, with the Gospel choir  
Peace be with you, the Lord will lift us higher  
Don't live too fast, as Clark's siliconed sled  
Peaceful feeling of joy, from your heart to your head

Matthew 28:2,5-6 (ESV)

*“And behold, there was a great earthquake, for an angel of the Lord descended from heaven and came and rolled back the stone and sat on it...’Do not be afraid, for I know that you seek Jesus who was crucified. He is not here, for He has risen, as He said. Come, see the place where He lay.’”*

## **Lake Reflection**

Time to get things started, time to set things right  
With Jim Henson and the crew, on the stage of light  
John Williams conducts the soundtrack, as the orchestra takes flight  
Come together now, and fight the good fight  
God's shining His light, on this world gone astray  
Bringing peace that brightens, the darkest of day

There are many angels, here day and night  
Battling monsters, hidden from sight  
Let us not, just stand and stare  
Look to Heaven, and say a prayer  
For God is, cleaning up the despair  
Hear Melchizedek music, serenading in the air

Lake reflection, of the albatross that has risen  
Found the key in the water, while fishing under the prism  
God will take away the sadness  
No longer run by the madness  
The battle has already been won  
Becoming many through one

Hate that dwells, in the shadows of the night  
Can no longer hide, it's being brought to the light  
Jems of knowledge, more radiant than before  
Stepping through, a luminous waterfall door  
Visions of all things, to be restored  
Glory be to God, love and praise the Lord  
Snowing multitudes of white robes, an angel from the East  
Four rows of precious stones, bell bottoms on a blue collar priest

Neighbors stand strong  
You all know the songs  
We'll do whatever it takes  
As God has upped the stakes  
Lessons to be learned, through failure and weakness  
A Luke message of strength, in building completeness

Lake reflection, of the albatross that has risen  
Found the key in the water, while fishing under the prism  
God will take away the sadness  
No longer run by the madness  
The battle has already been won  
Becoming many through one

Isaiah 40:31 (KJV)

*“But they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint.”*

## **Stars of This Life**

Paramedic my label, in the air and the street  
Always busy and runnin', many people we meet  
Difficult at times, the life of a first responder  
In Emergency Services, you know our minds can wander

So many horrors, we can't unsee  
Movies in our minds, wish they wouldn't be  
From Medical, to Fire, and also PD  
Along with nurses, doctors, and all hospital staff  
To deal with our troubles, we try to joke and laugh

No matter your title, or initials 'round your name  
We all have struggles, and deal with different types of pain  
We're out there battling, a spiritual syncope of our own  
Always caring for others, while our health we postpone

We're all stars of this life, don't let that light burn out  
We've answered a calling, it's what our lives are about  
The job takes a toll, for all that respond  
No matter the patch, we serve above and beyond

Maintained strength, throughout this career  
After many years, surprised to still be here  
Tell your family you love them, seen countless lives end too soon  
Battled demons within me, not just during the full moon

Hours are long, handlin' everyone's issues  
Couldn't deal with my own, cryin' fears into tissues  
Started to become, Dr. Jekyll and Mr. Hyde  
While fighting my thoughts, of who am I inside  
I called Jesus to rescue me, while on my third watch  
He responded in an instant, blocked the devil's kick to my crotch

Working days and nights, many years a grim reaper fighter  
We've touched so many lives, and made things brighter  
Do not forget those, that answer the phone  
Dispatching the crews, so no one's alone  
Armed forces around the world, they are responding too  
Fighting battles of freedom, for me and for you

We're all stars of this life, don't let that light burn out  
We've answered a calling, it's what our lives are about  
The job takes a toll, for all that respond  
No matter the patch, we serve above and beyond

Ed we miss you, touched our hearts with comedic style  
No matter your pain, you always made us smile  
George my friend, your pain I hadn't forecast  
Then and now, you're the star of the class  
A list that is long, of many family and friends  
Who've left us too soon, their souls transcend

Told those tales from the dark side, to a new therapist  
One that wasn't on, my health insurance list  
Jesus my provider, now the only plan I'm with  
New fruit that's unbroken, His Spirit's my wordsmith  
Mending my heart, set my mind at ease  
Didn't even realize, I was in a deep freeze

Stress on your mind; body, family, and friends  
During life's struggles, our caring never ends  
Love's heartbeat of hope, keeps cardiac rhythm in time  
It cost nothing to pay attention, to these vital signs  
Brian Regan at the ER, feeling good as my valet  
Parks my heart with laughter, in a new spot today

We're all stars of this life, don't let that light burn out  
We've answered a calling, it's what our lives are about  
The job takes a toll, for all that respond  
No matter the patch, we serve above and beyond

*3am Songbook*

No more pills and no more booze  
No longer have the blues  
Helping broken hearts condition by design  
Living in a new garden state of mind  
Happy thoughts I now ponder  
No more nightmares for this First Responder

Psalm 23:4 (KJV)

*“Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.”*

## **My Father in All**

As I laid in bed, and looked down the hall  
What did I see, my Father in all  
Let me explain, just what I saw  
It was Jesus, at the end of the hall  
Scared and confused, was just a kid  
Under the covers, is where I hid

Struggled in life, and now much older  
Finally turned around, when He tapped on my shoulder  
Excited to know, Yeshua is my friend  
Saved, sealed, delivered, in the Book of Life it is penned  
Standing by Your side, best friends beyond the end

Thank You to my Father in all  
For picking us up, no matter how much we fall  
Trust in the Lord, He will pull us through  
On a forever mission, preview of our life that's in review

God of Abraham, Isaac, and Jacob, I've a Joshua request  
To fulfill the task at hand, and live an eternity that's blessed  
A cry out to our Savior, to free the oppressed  
A gentle whisper to Elijah, Chariots of Fire theme song  
May seem short in measured time, yet the journey has been long  
Double portion of Spirit, as within Elisha mighty and strong

We'll face our problems, and turn them into solutions  
It has begun, the love revolution  
It's time to live with Jesus, He is the One  
The class we're in, is Life 101  
No need to worry, God's already won  
A new day is dawning, here comes the Son

Thank You to my Father in all  
For picking us up, no matter how much we fall  
Trust in the Lord, He will pull us through  
On a forever mission, preview of our life that's in review

## **Brotherly Love**

My man Pierre  
You know he's on the air  
WMMR's the station  
Rockin' all across the nation  
Award winning crew, Preston and Steve show  
Your love's Philabudance, you help so many we know

Everything that rocks, you know Philly's got soul  
Eagles 2018, dramatic fourth down and goal  
Training, skill, and prayer, led them to the victory  
Philly Special forever, changed the city's history  
By the wings of the Eagles, swept up the champion's bowl  
Teamwork and dedication, accomplished that goal

His love is always shining  
In our playbook of silver linings  
Harry Kalas makes the call  
He's got high hopes for us all  
While tailgating in this life, there's no mistake on God's grill  
City of brotherly love, let's keep spreading good will

Bradley Cooper and Lady Gaga, a star is born  
Will Smith and the Roots, sounding the horn  
Boyz II Men and Bon Jovi, keepin' the motownphilly faith  
Sight and Sound Theater, walk with Jesus on His stage  
God's light from above, shines down so bright  
It's always sunny in Philadelphia, day or M. Night

His love is always shining  
In our playbook of silver linings  
Harry Kalas makes the call  
He's got high hopes for us all  
While tailgating in this life, there's no mistake on God's grill  
City of brotherly love, let's keep spreading good will

Rocky Balboa, battling in the ring  
God's love it will, take away the sting  
Fighting those demons, with fireproof boxing gloves  
Bandstand dancing to the music, that everyone loves  
Put on your old Victrola  
We love that rockin' rolla

A wild heart of Pink, we've joined the rally cry  
Fighting for the truth, a soulful freedom butterfly  
Practicing banjo strummer, all throughout the summer  
For the winter's Broad Street strut of the Mummies  
With that Wawa sound, their lights are always on  
Some things of Phileo Adelpheos, representing in this jawn

His love is always shining  
In our playbook of silver linings  
Harry Kalas makes the call  
He's got high hopes for us all  
While tailgating in this life, there's no mistake on God's grill  
City of brotherly love, let's keep spreading good will

*3am Songbook*

Here's a little ditty 'bout the crew in this city  
From Franklin the Dog, to Soul Man and Gritty  
We're all Philly Phanatics, stronger as one team  
We got Phang in the Union, it's not a pipe dream  
Faithful Philadelphia, Wingston spread your Wings  
A Goldberg's episode, about messages Moses brings

No matter your team, Swoop in and have fun  
We're all different mascots, that come together as one  
Spread that love, raise the city high above  
Just my way to show Philly, some brotherly love  
You can hear LaBelle a ringing, at Independence Hall  
Let's get back to unity, with liberty and justice for all

His love is always shining  
In our playbook of silver linings  
Harry Kalas makes the call  
He's got high hopes for us all  
While tailgating in this life, there's no mistake on God's grill  
City of brotherly love, let's keep spreading good will

## **Herb Garden**

Many years of sickness; power, money, and greed  
They've hidden God's medicine, something many may need  
Slow your life down, take some time to unwind  
Avoid negativity, and always be kind  
Number five is alive, on this Logan's run  
Let's all come together, live as a body of one

Let 'em say we're crazy, we know they're not right  
Feelin' at peace, while standing in His light  
Like the warmth of sunshine, sweet taste of honey  
Enjoy simple things, even without money  
So much better, than the pills before  
My mind was a prisoner, in someone else's war

Found the golden ticket, that opened the factory gate  
Inherited His castle, morals, values and fate  
Willie, Wiz and Webby, rollin' violet blueberry  
Listening to music makers, while dreamin' of snozberries  
Use your imagination, the world we can change  
Follow the Lord's path for you, it's been prearranged

Scatter healthy seeds, may the watering commence  
Cannabis flowers blooming, time to get off the fence  
Zero overdose statistics, with a calming of your mind  
Walking in the herb garden, not surprised to find  
The medicine you need, was inside you all the time  
Evil has been busy, but it's God's time to shine

Seems for many, good thoughts have declined  
Evil had them programmed, to be so blind  
Be like Ralphie with Jesus, turning shake into kind  
Miss you my friend, you have one funny mind  
That ice cream truck is playing, our favorite tune  
No matter your flavor, go grab your spoon

*3am Songbook*

Dispensaries helping people, with their cannabis needs  
State's tax revenue, funding services with their proceeds  
Cannabinoids and terpenes, fields of health that cares  
A multitude of benefits, from a plant and prayers  
An opioid alternative, you can grow in your home  
Don't dismiss it, do some research of your own  
Add hemp to your search, with crops for every industry  
Harvests like days of old, when things were done differently

Look into all of God's plants, take some ancient medicine courses  
Limitless possibilities, from abundant natural resources  
Different nations of people, all part of mankind  
Varieties in strains, we are one of a kind  
Try to relax, and stop with the labels  
They're breaking our backs, time to turn the tables

Scatter healthy seeds, may the watering commence  
Cannabis flowers blooming, time to get off the fence  
Zero overdose statistics, with a calming of your mind  
Walking in the herb garden, not surprised to find  
The medicine you need, was inside you all the time  
Evil has been busy, but it's God's time to shine

Time to stop their spin, of our endocannabinoid star system  
Endless healing properties, of nature's medicine  
For every type of illness, from arthritis to cancer  
A balance for the body, Jesus is the answer  
A call to the Lord leads to an exit door, from evil's grasp you'll escape  
Opens a window to truth, flip side two of life's mixtape

Learn the truth that's out there, before you swallow that pill  
Some things you think are helping, are making you ill  
Ask the families that are moving, from the state they are in  
To cure disease and stop the seizures, of their children  
People are no longer sitting idle, as a mute swan  
Like peace and love in the sixties, now it's back on

How about a remix, like one from Afroman  
Some positive news with Snoop, as your anchorman  
Fresh bouquets from the fields, Solomon sings his songs  
We can all be preachers and teachers, forever standing strong  
On life's many roads, of rolling hills with Cheech and Chong  
Sort through the deception, we can all get along

Scatter healthy seeds, may the watering commence  
Cannabis flowers blooming, time to get off the fence  
Zero overdose statistics, with a calming of your mind  
Walking in the herb garden, not surprised to find  
The medicine you need, was inside you all the time  
Evil has been busy, but it's God's time to shine

We're a palette of colors, that equal the same  
All are one in this world, start relieving the pain  
No need to compare, just be yourself  
We're all our own novel, on life's bookshelf  
A conversation with Jesus, is the key  
Call to Him, and you will see

Had a close encounter, of a Mozart mind  
Writing is the gift, that I've been assigned  
The path you're on, can go either way  
Gotta love one another, we all have a part to play  
Open your mind to see, the lies that divide us  
We're one race of humans, choose the Love that's inside us

Genesis 1:12 (KJV)

*“And the earth brought forth grass, and herb yielding seed after his kind, and the tree yielding fruit, whose seed was in itself, after his kind: and God saw that it was good.”*

## **The Music We All Sing**

Music's in the wind, the trees, and sounds of the night  
God is in the rain, washing away the pain and fright  
The voice that's been whispering, the doubt and despair  
That devil's banished from my mind, with God's Word in prayer  
In the deafening sound of silence, and roar of crashing waves  
Let everyone remember, as we are spending, Jesus Saves

Swinging a piano hammer of notes, on His music stand  
God's peace and love we're sending, all across the land  
Perfect harmony, the music we all sing  
Come join the band, for together it will bring  
Melodic tones are blossoming, God's green thumb  
This season of singing, a tent revival has begun

We've heard it said before  
Life's a Bible metaphor  
Don't hide the scars or struggles, it's part of who we are  
Like a Jacob wrestling match, in the month of Adar  
Israel's the name, gathering descendants from afar  
His love shines bright, through an infinity pool sky  
Above His footstool and in our hearts, He is always standing by

Swinging a piano hammer of notes, on His music stand  
God's peace and love we're sending, all across the land  
Perfect harmony, the music we all sing  
Come join the band, for together it will bring  
Melodic tones are blossoming, God's green thumb  
This season of singing, a tent revival has begun

Connect the sparkling dots, a new star lullaby  
On that shimmering map, of the Gospel in the sky  
His children are looking up, our peace is amplified  
Through encouraging words, I will praise You and testify  
His love comes through the voices, like the music of angels  
You say who, I say you, and all that are faithful  
Revelation 21 & 22 the Father keeps time, with His second hand  
A new home with the Lamb, the leader of our band

## **Starfighters Unite**

There's a universal battle, of this world supernatural  
Many so-called truths of history, may not be factual  
Wake up from the insanity, the devil's led us astray  
Exercise your spiritual muscle, build it stronger everyday  
For years I was blinded, by society's myths  
Never looking back, it's Jesus I'm ridin' with  
When things overwhelm, and you feel you can't cope  
Remember to pray, with Him there's always hope

Taking time machine rides with the Doctor, 'cross the starry pond  
Bringing peace into our home, unfolding time beyond  
Travelers in this dome, across the great horizon  
In the twinkling of an eye, our spirits are arisin'  
The star sailors are learning, new ancient ways  
Excited for the Lion, bringing brighter days

Starfighters unite, portal's aligned and activated  
Reach out to Christ, His entryway's illuminated  
Mystery's been solved, we've identified chevron seven  
The puzzle laid before us, a star gateway to Heaven

Heard the tolling of the bell, when it began to ring  
Our starship knows the way, staying under His wing  
Slideshow memories, of things I had forgotten  
Dreaming while awake, of which I'm never stoppin'  
Star League recruitment mission, for a good that is greater  
Gunstar One blasting off, with our navigator

God's spacesuit of many colors, we're all His astronauts  
Headed back with Doc Brown, at 1.21 gigawatts  
Returned to now, with a new enlightening  
Learned about the power, Earth's energy and lightning  
From galaxies above, to Atlantis here below  
His light of salvation, bringing peace to all we know

*3am Songbook*

Starfighters unite, portal's aligned and activated  
Reach out to Christ, His entryway's illuminated  
Mystery's been solved, we've identified chevron seven  
The puzzle laid before us, a star gateway to Heaven

He's gathering the tribes, and calling the team  
The Truth is out there, we're sailing the jet stream  
Holy Spirit at the helm, overflowing with inspiration  
A robin on the flight deck, with a nanu salutation

Elijah fires from Heaven, protected in the hanger bay  
The Lord guides our vessel, through a heads-up display  
Through trials and tribulations, we shout your name Yahweh  
Evil's empire has been defeated, closed the gate to death's star  
Take your soul on an exploration, find out who you really are

Starfighters unite, portal's aligned and activated  
Reach out to Christ, His entryway's illuminated  
Mystery's been solved, we've identified chevron seven  
The puzzle laid before us, a star gateway to Heaven

Christ already paid the price, an interstellar insurance premium  
Star knight returned, falcon soaring this new millennium  
Celebrate the victory, may Jesus' name be glorified  
There's power in His Word, spreading freedom worldwide  
Attacks by the pretender, are no match for the Messiah  
Battle's not of flesh but the spirit, a call of Jeremiah  
In this Starlite trailer park, every one of us is equal  
Sometimes our dreams find us, I'm excited for the sequel

With questions how and why  
Look up the answers in the sky  
God spoke a lyric music verse  
Created Earth, us, and the entire universe  
He is not of this world, walk a heavenly climb  
Gatekeeper's sheep, hear the open gate's chime  
Grab your life with both hands, on this ride of space and time  
Remove the limits from your mind, enjoy our Savior's cosmic rhyme

Jeremiah 1:19 (NIV)

*“They will fight against you but will not overcome you, for I am with you and will rescue you,” declares the Lord.”*

## **World Series of Life**

This game won't be, rained out from the storm  
Pure adrenaline's kicking in, put on your uniform  
Such an inspirational role model, that's Derek Jeter  
We can all learn so much, from a natural leader

Time to play ball, one plus three equals the core  
Always top of their game, no matter the score  
As we head to the field, and go out through those doors  
Tap that sign above, thank the good Lord for making us Yours

Striking out in life happens, you just gotta keep swinging  
This game isn't over, praise the Lord with our singing  
My heart has a Steiner certificate of authenticity  
Signed by Christ, filled with Holy Spirit electricity

God's won this World Series of life, there was never any doubt  
Always ahead in the count, you just can't strike Him out  
An All-Star team, like you've never seen  
Angels at the ballpark, legends in this field of dreams

George is in the booth, as Bob Sheppard calls the names  
Heaven's Monument Park, God's roster of forever's game  
Bald Vinny's creatures in the bleachers, they've got the roll call  
The game of life can be stressful, it's not always a fair ball

Tampa in the spring, preparing for that large workload  
Many situations we're in, like every Seinfeld episode  
We saw the sign to swing, now safe at His home plate  
Waved in from the Lord, and our supportive teammates

Opening day excitement, got those cheers set to max  
Peanuts, Hebrew National, and some Crackerjacks  
We're all working towards, our own old timer's game  
To walk through the gates, of God's great hall of fame

God's won this World Series of life, there was never any doubt  
Always ahead in the count, you just can't strike Him out  
An All-Star team, like you've never seen  
Angels at the ballpark, legends in this field of dreams

We'll all rise above River Ave, in a sky of tiger lily  
Heading to the postseason, an October night that's chilly  
Running life's bases, with finesse and style of Willie  
Some games you will lose, don't let it get depressing  
Waking up to play a new game, one of our many blessings  
With love in your heart, you can sail any ball outta the park  
Radar reads the speed of light, switch turnin' off the dark

There are endless players and support, so many to name  
Michael Kay with the play by play, Yes he takes us out to the ballgame  
New York Yankees on the radio, everyone's a fan  
Calls the games with commentary, Sterling and Waldman  
Working behind the scenes, are the staff and ballpark crew  
Steinbrenner family and the fans, always tried and true  
Thank you all so much, we appreciate what you do

*3am Songbook*

Ninth inning, game 7, with that closer we all know  
It's a win with a cutter, from none other than Mo  
Down by many runs, we fought back and overcame  
Ol' blue eyes plays us out, at the end of every game

God's won this World Series of life, there was never any doubt  
Always ahead in the count, you just can't strike Him out  
An All-Star team, like you've never seen  
Angels at the ballpark, legends in this field of dreams

When life's pennant race is tough, and you're feeling fatigued  
God will send out His love, to the worldwide league  
In the end we'll all be standing, together as one team  
Don't hide the stuff you're made of, dare to live your dream

## **The Storm**

October 2012, they say a storm is coming  
Scene from Noah's ark, with such intense flooding  
Couldn't have imagined, what soon we would see  
That storm of destruction, was hurricane Sandy

The tide had retreated, seemed good to go  
Soon took a drastic turn, little did we know  
The island was overtaken, the ocean met the bay  
Water all around us, with raging fires across the way  
Was this really happening, images of judgment day

When we passed through the waters, He was with us  
When we passed through the seas, they did not sweep over us  
Sailing our vessel, across the rivers of an infinite sky  
Heart's now crying tears of joy, flowing from my mind's eye  
He lifts us up to higher ground,  
above the depths on a rock platform  
He always has His eye on us,  
that is greater than the storm

Little did we know, this was just the beginning  
Appeared this destructive force, was now winning  
Raging rivers in every direction, surrounded where we live  
Seemed we might not make it,  
storm's fierce anger would not forgive  
Roaring wail as the waters, came crashing through our homes  
No more land around us, still protected we were not alone  
A Moses and Aaron journey, with the Lord we're always known

Neighborhood captains coming together, for the rescue cause  
A heart for helping others, they weren't looking for applause  
Many brought their boats, whatever they may be  
Floating down the streets, that had now become the sea  
To take the people in their paths, up to higher ground  
While the ship of fools was tossed, from the lost to the found

*3am Songbook*

When we passed through the waters, He was with us  
When we passed through the seas, they did not sweep over us  
Sailing our vessel, across the rivers of an infinite sky  
Heart's now crying tears of joy, flowing from my mind's eye  
He lifts us up to higher ground,  
above the depths on a rock platform  
He always has His eye on us,  
that is greater than the storm

Hopped in the boat, at the front door of our home  
With our dog and our cat, floating through the seafoam  
We always can replace, our Carlin stuff of material  
Made it out with our lives, another of God's miracles

Thank you for the care and support,  
from around the state and country  
Providing shelter and warmth, along with food for the hungry  
The rescuers and neighbors, so many volunteers  
Outpouring of their love, suppressed the worry and fears  
In an emotional time of sadness, you helped dry the tears

When we passed through the waters, He was with us  
When we passed through the seas, they did not sweep over us  
Sailing our vessel, across the rivers of an infinite sky  
Heart's now crying tears of joy, flowing from my mind's eye  
He lifts us up to higher ground,  
above the depths on a rock platform  
He always has His eye on us,  
that is greater than the storm

Through the flood saw that rainbow, now have total recollection  
A call waiting in my dreams, to where I made the connection  
At world's end, a time or location could be a sonata form  
Everyone pulled together, helping others to stay warm

What looked like the end, was only the beginning  
Rebuilding even stronger, no surprise God is always winning  
For everyone enduring, your own storm of any name  
A call to Jesus in the midst, will guide you through the rain

Psalm 107:28-29 (ESV)

*“Then they cried to the Lord in their trouble, and he delivered them from their distress. He made the storm be still, and the waves of the sea were hushed.”*

## **Our New Pledge**

Blessed are those that pray  
Now enjoying life everyday  
Walking by faith, happy to hear  
Blinders are off, and seeing so clear

Don't be distracted, with what you see on TV  
More destruction being funneled, into you and in me  
Negativity overwhelms us, and stirs us with hate  
Does this even seem real, I know this can't be our fate  
We'll stick together, like overcooked mac  
Shake up this snow dome, Jesus can stop the attack

We pledge allegiance to our Lord  
Of this entire vast universe  
And in His love, we the kingdom stand  
One body, with many members of Christ  
Indivisible, with peace, and freedom for all

Kick back and relax  
Time to bury that ax  
Go by the book, you know the one from the Lord  
Follow His lead, throughout this crazy chess board  
Life's like furniture in a box, you bought from Ikea  
Take your time assembling, following instructions is a good idea

Don't let your heart become, a stuffed vacuum of dirt  
Fill it with love, empty out the hurt  
Put on a Fluffy smile, of happiness and humor  
Got some lyrical advice, from Michael Jr.

We pledge allegiance to our Lord  
Of this entire vast universe  
And in His love, we the kingdom stand  
One body, with many members of Christ  
Indivisible, with peace, and freedom for all

As I stand on the beach  
Nothing's outta God's reach  
Waving out to a scrolling sea  
Not surprised to see, waves back at me  
Be humble, happy and forgiving  
This life, it is for living

Psalm 69:34 (ESV)

*“Let heaven and earth praise him, the seas and everything that moves  
in them.”*

## **A Shining Moment**

We're taking away the redrum, from society's mirror  
Jack's no longer a dull boy, now seeing much clearer  
Midnight, the stars and you, God's the Earth's film maker  
Not putting the horror in movies, He's always been our caretaker

Jesus is greater than any sickness, can I get an Amen  
Hearing silent messages, with Doc and Mr. Hallorann  
Once you realize and believe, you'll begin to see  
We all have special moments, that set our hearts free  
Closed that old door, on evil's room 237  
Opened a new door, to the gates of Heaven

When the beast is coming after you, darkness behind the mask  
Devil on your shoulder, anxiety and fear are his tasks  
Don't run away, you'll fall down and let out a scream  
Get up now and take a stand, this is your life not just a dream  
Look to the angel on your shoulder, to help lead you outta hell  
You have a choice don't be afraid, to leave this Overlook Hotel

Hear this song that's being sung, in a voice of Vincent Price  
Don't back down from fear's challenge, just some friendly advice  
His protection's always with us, although it may not be seen  
In the scariest of times, and every shining moment in between  
When living in a thriller, and a creature's on your trail  
Call to the Lord Almighty, with His Word you will prevail

As the dark spirit hovers over, just know you will get through  
Before that evil's about to take your soul, ask God to save you  
Fight the fear and battle, the monsters in this life  
You'll see the power's in you, to make them drop the knife  
Remove the darkest shadows, from your memory warehouse  
Here we come with Duddits, the devil's flames we'll douse

The thing takes shape of anyone, when you're lost in the fog  
Watch out for the rabid beast, a raging hellhound dog  
It sometimes can be misery, and other times redemption  
Through these horrors around me, my heart He has strengthened

While having a cup of coffee, a thought came to my mind  
Tired of people being mean and nasty, to each other all the time  
The broken glass inside my head, is fixed and shatterproof  
It's now open to the Lord, with a permanent Sonroof

Hear this song that's being sung, in a voice of Vincent Price  
Don't back down from fear's challenge, just some friendly advice  
His protection's always with us, although it may not be seen  
In the scariest of times, and every shining moment in between  
When living in a thriller, and a creature's on your trail  
Call to the Lord Almighty, with His Word you will prevail

We're no longer in fear, of the alien inside  
God's love is within us, there's no reason to hide  
Send the boogey man and shadow people, away from your mind  
Show those demons, access to your soul has been declined

The Lord beamed me up, while I was rappin' with Sevin  
Closed the upside down gate, with the crew and Eleven  
There are no more nightmares, on any of our streets  
The warriors of dreams have conquered, the series is complete  
No matter the evil character, one thing's for sure  
Always take a stand, and let God's love endure

Proverbs 3:5-6 (NKJV)

*“Trust in the Lord with all your heart, and lean not on your own understanding; In all your ways acknowledge Him, and He shall direct your paths.”*

## **God's Social Media**

Not sure why, this way I feel  
Things sometimes, no longer seem real  
Evil has made, this world seem absurd  
Feel comfort every day, as I read God's Word  
The Bible just makes, more sense to me  
Than all this confusion, shown on TV  
Get the Bible app, His Word is in your hand  
Pick the language, that you understand

When Jesus calls or sends a friend request, will you accept  
Will you share His peace, or hit decline and reject  
Retweet God's love, it's time to subscribe  
You'll receive joy, that's hard to describe

I've been trying my best  
My whole life seems a test  
Only during the times that I kneel  
Can I stand against the evil that's real  
No longer filled, with overwhelming anxiety  
Proverbs messages of instruction, for all of society  
Don't mind the labels, like crazy or nut  
'Cause I know God's with me, feel it in my gut  
Things can get rough, don't worry they'll improve  
I pay more attention, no longer missing my next move

When Jesus calls or sends a friend request, will you accept  
Will you share His peace, or hit decline and reject  
Retweet God's love, it's time to subscribe  
You'll receive joy, that's hard to describe

My path is prewritten, all part of God's plan  
He's been with me, since before my life began  
When looking for answers, as are most  
Use hashtag Holy Bible, within your post

Been through a lot, stayed strong to survive  
Flew out that cuckoo's nest, happy to be alive  
Thank you for my life savings account  
For God's love is an eternal amount

When Jesus calls or sends a friend request, will you accept  
Will you share His peace, or hit decline and reject  
Retweet God's love, it's time to subscribe  
You'll receive joy, that's hard to describe

I'll fight the good fight, morning, noon and night  
No longer trapped in the darkness, I'm reaching out for Your light  
Peaceful feeling to know, everything is alright  
My heart fills with joy  
God's love He'll deploy  
One more thing, I no longer keep cryin'  
Thank You Lord, love your friend forever, Brian

Psalm 119:105 (KJV)

*"Thy word is a lamp unto my feet, and a light unto my path."*

## **Nature is Singing**

Trees take a deep breath, lungs of the Earth  
Keepin' us alive, there's no greater worth  
Listen to the birds, in your backyard  
You'll hear their lyrics, musical greeting card  
Beatles harmonize, as we share our memoirs  
Heaven sings in unison, beyond the canopy of stars

Birds and trees, singing their hymns  
Squirrel's gather nuts, from the tree limbs  
Swimming with life, in the seas of clear blue  
Underwater waves, voices echo through  
Notes played by ear, Shepherd's music staff anew  
Carried on a cross breeze, of Heaven's precious dew

On a journey of my mind, always thinking deja vu  
Feelin' free talkin', with Tommy from The Who  
Listening to the melody speaking, when I heard the call  
With faith like Abraham and Job, we can stand above all  
Messages of SuperBook, the children reflect  
Read between the lines, the notes connect

Nature is singing, divine song and dance  
Sing out God's love, a poetic romance  
The sound of music, through a Narnia mirror  
Listening now, and I've never seen clearer  
Like the flowers, bloomin' up through the snow  
Reaching to the sunshine, for the love they know

Stop and smell those flowers, of strawberry pez  
Don't listen to doubt, no matter what it says  
Listen to nature, God's great composer  
Playing a free concert, that brings us all closer  
Walking in fields of poppies, you've got to stay awake  
New sound across the world, stopping tin foil headaches  
Maestro of the plants, all playing a tune  
Garden orchestra, on a sunny afternoon

Bluebird Cafe, in Nashville, Tennessee  
With Garth and Trisha, talked over coffee and tea  
At Studio G the song remembers, to love one another  
Let's be frank, you both pour your hearts out to others  
We shall be free, my sisters and brothers

What a wonderful world with rhythm, like that of your heart  
A backyard sanctuary, where it's all God's art  
An August rush of wind, that lifts the songbird's wings  
A saxophone call to God, angel's voice of harp strings  
Woodwinds are blowing, a change it will bring  
Listen to the messages, three little birds sing

Nature is singing, divine song and dance  
Sing out God's love, a poetic romance  
The sound of music, through a Narnia mirror  
Listening now, and I've never seen clearer  
Like the flowers, bloomin' up through the snow  
Reaching to the sunshine, for the love they know

Psalm 105:2 (ESV)

*"Sing to him, sing praises to him; tell of all his wondrous works!"*

## **A Family Guy's Letter to Seth**

Hi Seth, it's multiverse Brian  
You don't know me, but lately been cryin'  
Depression, anxiety, and PTSD, with sudden fears of dyin'  
Been pushin' my way through, God knows I've been tryin'

Even as a paramedic, still not knowing my true purpose  
Who's been driving this life, seems only a circus  
Now I have a focused mind, and my heart flows upstream  
To one body of Love, sailing Christ's bloodstream

Happy there's a Family Guy, using life as the key  
Some don't understand, maybe they just don't see  
What seems to be, so obvious to me  
Showing reality in cartoons, some pretend it can't be

Good and bad truths, in every episode  
Life's clues are out there, you just have to decode  
While working through struggles, in this world of Quahog  
Learn to break free, from this day of groundhog  
Seems always the fun ones, are standing up tall  
A new season of laughter, all for one and one for all

Most movies, songs and books, need a Wayons brother  
Yelling "Message", one unlike any other  
Was feeling like Meg, for most of my years  
The sadness and anger's no longer grinding my gears

Woke up bright and cheerful, from this life's hangover  
Calling on the walkie, now the sentence is over, over  
Feeling better now, heart's filled with love I can't describe  
Let's all pour out, our positive vibes

Happy there's a Family Guy, using life as the key  
Some don't understand, maybe they just don't see  
What seems to be, so obvious to me  
Showing reality in cartoons, some pretend it can't be

Took me some time, now I'm starting to learn  
In my dream I asked you, do you need an intern  
I feel my life is now, beginning Act II  
So much together, we can all do

Every show has great writing, from an amazing crew  
A future flashback, may I please help too  
I'll work my way up, and earn my stay  
It feels really good, writing the things I have to say  
A medic's episode with Jesus, on Heaven's highway

In the GPS of life, at the fork of left or right  
Choose the path of forward, a new direction we'll fight  
So happy to know, I can write anywhere  
Brightens my life, I'm cloud walkin' on air  
Many more pages to say, not worried 'bout pay  
Thank you for listening, and have a nice day

## **Bucket of Love**

Buckethead show, front row TLA  
Changed my life, don't know what else to say  
Thank you for the gift, you gave me that night  
Those colors forever, will be shining so bright

Peering through an amethyst sky, over hills of eternity  
There's a light through the fog, for all of humanity  
Electric sea, below a Cheshire smile moon  
Spirit soaked soul, speaks a universal tune

A Buckethead jam, at Disneyland  
Ride the bucket of love, to the Promised Land  
Let your mind ponder  
With that childlike wonder  
Hundreds of songs, to take you away  
His guitar's telling, its own screenplay

A favorite character, shredding guitar licks  
Slaying the villains, with the strike of a pick  
A blast from his phaser, can do the trick  
Savin' the day, one show at a time  
Playing a Buckethead nursery rhyme

With Bootsy's world wide funk  
To a Michael Jordan dunk  
For Mom, and watching the boats with my Dad  
The way to Heaven is an inward journey,  
sharing sounds from our heart's note pad

A Buckethead jam, at Disneyland  
Ride the bucket of love, to the Promised Land  
Let your mind ponder  
With that childlike wonder  
Countless songs, to take you away  
His guitar's telling, its own screenplay

Look for him, and the redeem team  
While enjoying this life, and dancing the dream  
A watercolor picture, think you'll like it man  
Some love and appreciation, from a Buckethead fan

## **God's Goodness**

God shines His light, on the darkness of the day  
His love overcomes, all that was once gray  
In His glory, forever and ever we shall stay  
We start every morning, with in Jesus name we pray  
You know love wins, He wrote the soundtrack  
Where evil once stood, now goodness is back

Our past passed away  
New world with Jesus, is coming our way  
Get yourself together, no more runnin' astray  
Future's so bright, and it's here to stay  
Open your heart, and quiet your mind  
Feel God's goodness, and let it shine

This world is changing, it's easy to see  
God's love is strong, He's in you and in me  
A shower of light, shines all over this land  
We're all coming together, to take our stand  
My friend Chris Pratt said it, "God is real"  
Truth shall set us free, yeah it's a pretty big deal

Our past passed away  
New world with Jesus, is coming our way  
Get yourself together, no more runnin' astray  
Future's so bright, and it's here to stay  
Open your heart, and quiet your mind  
Feel God's goodness, and let it shine

The ban has been lifted, the new show must go on  
Heard the call that was played, from the trumpeter swan  
People get ready, a Zephaniah announcement train  
Keep your head in the heavens, within Christ's fire and reign

Our past passed away  
New world with Jesus, is coming our way  
Get yourself together, no more runnin' astray  
Future's so bright, and it's here to stay  
Open your heart, and quiet your mind  
Feel God's goodness, and let it shine

Coming together, in Christ the One  
God's rescue mission has begun  
A precious moments collection, of His chosen ones  
Hearing waves in a shell, playing tympanic drums  
Truth and Love, without the fear  
The Word through Malachi, have we ears to hear  
Just a thought bubble, as the day draws near

John 3:16 (KJV)

*“For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.”*

## **Rhyme for Today**

I've so much to say, was all the labels, a mess  
Jesus has saved me, to the world I confess  
No longer lost on a midnight run  
Life is now a lot more fun  
Lose yourself in His glory  
We all have a Spielberg amazing story  
Like a children's book, that's fantastical  
Who heard the call, in this world that's musical

In Jesus name we pray  
James, Jude, and Peter, they say hey  
God is molding us from His clay  
Our favorite day, that is today  
I write what He tells me to say  
Tellin' the world about God's peace, that's real without delay  
Sounds like an Adam Sandler movie, spreading love every day

Major Tom can hear you, the signal's loud and clear  
View from Heaven is spectacular, now there's nothing to fear  
Live like a Life is Good shirt, on your journey's pathway  
Take some time to listen, to this rhyme for today

A weirdo older brother, that you never knew  
Prozac nation for me, attention deficit for you  
A midweek Webby Wednesday, always droppin' fire  
Your lyrics lift us higher, causing others to perspire  
Calls them out like it or not, Christian's here to stay  
Always on top, speaking truth everyday  
Letting 'em know, we're not runnin' away  
Corruption's going down, God's tired of the foul play

Eminem, I've been listening for years  
You've reached us my friend, you wouldn't believe the tears  
You and many others, been helping with our fears  
We're all soldiers of peace, in the Lord's ballet  
Gotta prescription for music, from the doctor that's Dre

Major Tom can hear you, the signal's loud and clear  
View from Heaven is spectacular, now there's nothing to fear  
Live like a Life is Good shirt, on your journey's pathway  
Take some time to listen, to this rhyme for today

Show me the way in this grand illusion, we're rockin' in paradise  
Everyone together now, a song that's Edelweiss  
Billy Graham changing the world, with the messages he preaches  
We all have a role to play, listen to some Denzel speeches  
In this band of unity, we're a praying motley crew  
The right path is laid before us, the choice is up to you

## **Glad World**

Awake with my dreams, like Daniel and Joseph  
Nice new places, now I'm focused  
Rise and shine, happy faces going somewhere  
From horror story nightmares, to peace with the Lord's prayer  
Son is bright, wearing clear view glasses  
An ark of love, above the sleeping masses  
Meet my friends, they go by new tomorrow  
Raised our heads, no longer drowned in sorrow

Feel relieved now, that we're all not mad  
Dreams in which I'm flying, are the best I've ever had  
We're all here to tell you, this life is what you make it  
When people stand for something, see through the counterfeit  
No longer scary, but a very glad world

Children playing on the swings, they feel good  
Adults should feel the way, that every child would  
Anything's possible, in this world of a Disney movie  
Let's be preachers and play God's music, He wrote it through me  
New expression, on this amazing new day  
A voice of one calling, prepare the way  
Anybody listening, can you hear the sound of strings  
An open door with David's key, victory Jesus brings

Feel relieved now, that we're all not mad  
Dreams in which I'm flying, are the best I've ever had  
We're all here to tell you, this life is what you make it  
When people stand for something, see through the counterfeit  
No longer scary, but a very glad world

I'm thankful for, the tears and fears  
They led me to, the smiles and cheers  
My mind is filled, with rays of sunshine  
No more whiskey or pills, and now I'm fine  
Cured the cyst, that was inside my spine  
Thank You Father, for resuscitating me  
Brought me back, to a true reality

Feel relieved now, that we're all not mad  
Dreams in which I'm flying, are the best I've ever had  
We're all here to tell you, this life is what you make it  
When people stand for something, see through the counterfeit  
No longer scary, but a very glad world

Psalm 98:1 (ESV)

*"Oh sing to the Lord a new song, for he has done marvelous things..."*

## Wind of the Wolf

"M" represents the dark storm, that once was my mind  
So many thoughts, had been hard to unwind  
At times like the wolf, being misunderstood  
Then others red riding, in this neighborhood

My palette's splattered blue, of different gradients  
Never ending color sounds, all simultaneous  
Snake in the grass, is it friend or foe  
Call to the Lord, the truth you'll know  
Now poured out the sadness, that was trapped from within  
Words or pointing fingers, can't get under my skin

Wind of the wolf, reveals a new coloring book  
Voices of strength, bright blue sky outlook  
Had struggled before, while searching for meaning  
Bible book of instruction, I am believing  
We're a body of one, with a different spirit of being  
Through a clear lens of faith, I've a new vision of seeing

Breaking the bottle, no longer holding it in  
Stood against fear, won the blue ribbon  
Stronger inside, battling storms of darkness  
Fighting it now, will succeed regardless  
Painting that blue, into a new wave of inspiration  
I'll never back down, 'cause I was born to win

Blackbird sings of freedom, to the bats of the night  
As the deer sees clearly, in the headlight that's bright  
The wolf is howling, with the breath of His spirit  
Endless notes my heart plays, while in one body's appearance  
Together with the Lamb, an Isaiah message that's alive  
Traits of goodness in battle, forever we'll strive  
Being a work in progress, we will survive  
Bible voices speaking, it's time to revive

Wind of the wolf, reveals a new coloring book  
Voices of strength, bright blue sky outlook  
Had struggled before, while searching for meaning  
Bible book of instruction, I am believing  
We're a body of one, with a different spirit of being  
Through a clear lens of faith, I've a new vision of seeing

## **Our Gift**

Does anyone remember, what Christmas really means  
It's in the name and everywhere, so obvious it seems  
Climbed that mountain, standing up to see so clear  
All of humanity being raised, beyond our atmosphere  
When the devil came at me, the Lord sent him away  
He was confused and distraught, in Jesus name I'll always pray

Exposing evil while loving, in the world of our Creator  
He's the year-round, Christmas party coordinator  
Don't let hate overtake, stop feeding the disease  
You'll just end up covering, a black eye with frozen peas  
If traveling a dark and stormy road, that is hell bent  
Turn on your brights, go off-road and repent  
Don't let the devil, be your director, editor or illustrator  
For the living Word that God has written, is forever greater

Power of prayer will open doors, to that house up on a hill  
He's got the key for your new home, this is not a drill  
Hearts becoming peaceful, His amazing grace is our gift  
Let go of hate and anger, your soul the Lord will lift  
Heaven's windows are open, you can hear those angels singing  
On a sled of freedom, peace and love we are bringing

Shout out to everyone, be a Jesus mouthpiece  
Old and New Testament letters, of which to build our masterpiece  
Some things can be tough, but God gives us strength  
Tune into His Christmas carols, feel your heart's wavelength

Hear the joyful singing, bringing unity throughout  
He's the reason for the season, for me there is no doubt  
In this life you follow, His entire Word that's true  
Not just choosing certain parts, you think will work for you  
Receive the Holy Spirit, just invite Him inside  
He's the one taking you, on this wondrous ride

Power of prayer will open doors, to that house up on a hill  
He's got the key for your new home, this is not a drill  
Hearts becoming peaceful, His amazing grace is our gift  
Let go of hate and anger, your soul the Lord will lift  
Heaven's windows are open, you can hear those angels singing  
On a sled of freedom, peace and love we are bringing

Did you ever stop to ask  
'Bout the presents throughout this task  
His presence is our present  
Of which it's time to be present  
Think about that, just an example for some  
A trio of omnipresence, that all equal one  
The world is full, of different solutions  
Choose to be positive, stop the hate pollution

## **Clean Soul**

When you happen to step, in an evil load  
While your takin' a walk, down life's winding road  
Not to worry, washes right off with a soul that's clean  
Just stay hopeful, you all know what I mean

Wipe your feet, on God's welcome mat  
Within His love, is where it's at  
There's no load too large  
When a clean soul's in charge  
God loves us all, not a question of maybe  
Love that's the power, of a fine soul baby

No need to worry  
Or be in too much of a hurry  
Life's meant for livin'  
Enjoy what you've been given  
Heart's no longer frozen you see  
It's now warm, no matter the weather for me

Wipe your feet, on God's welcome mat  
Within His love, is where it's at  
There's no load too large  
When a clean soul's in charge  
God loves us all, not a question of maybe  
Love that's the power, of a fine soul baby

Just because you smelt it  
Doesn't always mean you dealt it  
Could be on someone else's shoe  
Trying to cling onto you

We can all walk over, the waters of doubt  
There's nothing that God, can't wash out  
Use a new cleaning solution, one that's easy to obtain  
Call on the Lord, for a cleansing shower in His reign

Wipe your feet, on God's welcome mat  
Within His love, is where it's at  
There's no load too large  
When a clean soul's in charge  
God loves us all, not a question of maybe  
Love that's the power, of a fine soul baby

Psalm 51:10,12 (ESV)

*“Create in me a clean heart, O God, and renew a right spirit within me. Cast me not away from your presence, and take not your Holy Spirit from me. Restore to me the joy of your salvation, and uphold me with a willing spirit.”*

## **The Answer**

Greetings of love  
With blessings from above  
Within this book of many rhymes  
A stabilized chronosphere of time  
I've a story that never ends  
About this society that's all pretend  
Upon this desert of shattered hopes  
No more swamp of sadness, we'll fight the hoax

Spoke with Melanie, my friend mad hatter  
We've much in common, sharing our gray matter  
We see things differently than others  
While listening quietly to colors  
Hymns of angelic harmony, at Alice's restaurant of healing  
A groovy movement of peace, with love showing feeling  
Expose the secrets, of this wonderland  
Against the fallen angels, we take our stand

The grandfather clock, has been rewound  
The puzzle's answer, has been found  
In this disturbed, land of confusion  
Curtain's been lifted, on the snare of illusion  
You have a choice, with life's pills of red or blue  
Choose the Truth, when the caterpillar calls to you  
Go ask Alice, whose world's insane  
We've found the balance, opened eyes back to sane

God's angel army is everywhere, rider on a white horse  
We don't have to hide anymore, love has set the course  
Awake and dreaming, breaking through the elsewhere we'll go  
Heard that bell ringing, we're going on with God's new show  
While sitting in the backyard, singing with Ronnie  
A rainbow in the dark, appeared brightly over me  
Feel like Bart from Mercy Me, took a lifetime for this quest  
Hopes and dreams are what we need, to live this life so blessed

A Tim Burton mind, of wondrous imagination  
Endless sea of possibilities, an ancient rhyme of Revelation  
With Christ in our hearts, we can always overcome  
We are never alone, multiple warriors of one  
Conversations with Mr. Roth and Mr. Cahn  
Discussing the mission that we are on  
There are no limits with our Creator, He's our fire screen  
He'll lift us up like Falkor, can you picture that scene

The grandfather clock, has been rewound  
The puzzle's answer, has been found  
In this disturbed, land of confusion  
Curtain's been lifted, on the snare of illusion  
You have a choice, with life's pills of red or blue  
Choose the Truth, when the caterpillar calls to you  
Go ask Alice, whose world's insane  
We've found the balance, opened eyes back to sane

Listen for His music, overture of love that's unified  
With teardrops of joy, this highwayman's reached the other side  
Kaleidoscope eyes, on life's movie screen projecting  
A paradise lost, returning soon our soul's reflecting  
Jesus is the answer for us all, what were you expecting

## **Lighthouse of Hope**

A backyard battlefield, marching onward are the knights  
Touching a sky of green fields, those New Jersey northern lights  
Swirling pillar of fire, in an underwater house of screen  
Sonburn on my face, has brought me to my knees  
An Enoch at the door, on a journey with John  
Jesus' sequel is the prequel, many visions are drawn  
Life is a symphony, a page in God's hymns  
With Christ in our heart, let's rejoice and honor Him

That was the night, I picked up His shield  
A faith so strong, that will never yield  
Fine linen field of snow, getting ready to go  
A comforting breeze of breath, into us it blows  
Come Alive dry bones, He makes a stick of one  
His tabernacle is with us, the battle's always been won

Haunted house cleaning, my mind was being torn apart  
Sometimes you have to lose your mind, to find your heart  
A glimpse of eternity, from the angel of the Lord  
Changed my life forever, now and ever more  
A lighthouse of hope, that is burning so brightly  
The only ghost within me now, is One that is Holy

In the sixteenth Act they prayed, and sang praises unto God  
The prisoners did hear them, His freedom gave the nod  
A nineteenth Revelation, the multitudes are saying  
Thundering Hallelujah, the Lord God is reigning  
24 and 4 fell down, and worshipped God on the throne  
Tuned to the key of David, Sunflower seeds are being sown

Jesus the Master key, for all universal locks of art  
Doors opening and closing, valves of your own true heart  
We may not comprehend, but yes God knows  
He's the treasure we seek, the bridge of all rainbows  
Always Faithful and True, to me and to you  
Beautiful artist's renderings, of the picture that He drew

Haunted house cleaning, my mind was being torn apart  
Sometimes you have to lose your mind, to find your heart  
A glimpse of eternity, from the angel of the Lord  
Changed my life forever, now and ever more  
A lighthouse of hope, that is burning so brightly  
The only ghost within me now, is One that is Holy

Blessed are they that are invited, to the wedding I do  
Supper of the Lamb, God's Word is True  
Take a righteous turn with Jesus, His road will lead you higher  
The beast and the deceiver, thrown into the lake of fire  
His angel threw the dragon, the ancient serpent, into the abyss  
Locked and sealed away the devil, that deception won't be missed  
The saints are marching, God's will be done  
A thousand-year reign, God Bless Everyone

Acts 16:30-31 (ESV)

*"... 'Sirs, what must I do to be saved?' And they said, 'Believe in the Lord Jesus, and you will be saved, you and your household.'"*

## **Thank You Song**

I hope you have enjoyed, this 3am songbook  
A glimpse into my heart, for you all to take a look  
In my darkest of nights, the battle had been won  
When I called out Your name, together becoming one  
Thank You Jesus, my Lord and Savior wearing the crown  
My life's just beginning, now picking up what You're putting down

Where I was only one before, now we are two  
You've been helping me since my life began,  
I hadn't realized it was You  
I've more subject matter to move around,  
as I begin this calling of a writer  
Wearing Songlasses, the future's never been brighter  
Even when I didn't think, I'd get through another day  
I've learned to live for You Lord, and follow in Your way

Thank you to my wife Kathie,  
here in the good times and sadness  
Helping me throughout, the nightmares and the madness  
Thank you to our Moms and Dads, for never giving up on me  
While my heart became a stone, and my soul an absentee  
Thank you to all of our family and friends  
Many prayed for me, when I was close to the end

Thank you to our family of pets, Sunshine dog of therapy  
Without the help from all of them, I don't know where I'd be  
Thank you to all at Milestone Church, and to Pastor Bill  
My heart that was empty, you have helped refill  
Thank you tri-state Bible study, always on God's radar  
I appreciate everyone mentioned, just for being who you are

Thank you to Tonya, you helped me find my pen  
Made a difference in my life, God Bless and Amen  
Thank you to the songwriters, musicians, writers and singers  
Movie makers, entertainers, YouTuber's, and sports figures  
Thank you students and coworkers, serving within this vaulted ceiling  
Thank you Bible teachers, and all who've heard the thunder pealing

An endless list of many others, helping with the healing  
Thank you all in the Bible, your influence is more than a feeling  
Thank you Heaven's angels, always helping along the way  
Thank you Lord for sending them, each and every day  
All got me through life's puzzle, your love helped stop my cryin'  
This entire book's a thank you note, from this life of Brian

Thank you to the readers, for checking out this book  
I pray it has touched you, now that you've taken a look  
On this new adventure, I've been working overtime  
Sorting through the words to write, that are whirling in my mind  
Another dream's to hear these lyrics, played on the radio  
My heart hears music notes, as works of Michelangelo

As this comes to a close, may I remind you all  
Always get back up, when you stumble and fall  
Break the doubt that's racked up, 'cause you're the cue ball  
Go live your dream don't hesitate, when you get the call  
Always be kind and loving, a heart filled with joy and laughter  
Keep God above all things, in life you'll live happily ever after

## *Thank You!!*

Psalm 100:4 (KJV)

*"Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him and bless his name."*

I was drawing a blank, when my pen ran out...

I began waking up at 3am every morning and started to write this collection of lyrical poems. They are songs telling stories of my life and about my journey with the Lord. I started to have new experiences of divine intervention as the Holy Spirit was guiding me and giving me these words to write.

The theme throughout these poems is the many battles of good and evil that I feel we all struggle with in various ways. Things that were once negative and difficult, I now see in a positive light. The nightmares in my mind have been replaced with dreams of positivity, inspiration, and new beginnings.

While on this adventure, I saw that anything is possible. This happened when God woke me up to life in His world. Now I see that we all have meaning and that everything really does happen for a reason.
